PRODUCT NAME: 944 – 2 ATHLETIC FIELD MARKING PAINT		A vinyl acrylic latex coating formulated for machine application to athletic field surfaces. Formulated for stripping and marking natural surfaces; such as grass, cinder and dirt playing fields.						
WHERE TO USE:		For line striping or marking of natural grass; baseball, soccer, football, field hockey and any other field or surfaces. A safe alternative to lime. The product will not harm eyes or grass. Lines will not blue with rough use.						
Surface Preparation:		Apply after grass has been recently cut and avoid morning dew. Do not apply at temperatures below 40 degrees F. As these lower temperatures will slow the dry time of the material. Normal Reduction Rate: Thin with water to a consistency suitable for the particular spray equipment.						
Application:		Airless Spray Tip size and atomization pressure will vary with type of equipment, viscosity and temperature. An orifice of .015 - .021 will provide the most satisfactory spray patterns, dependent upon the surface texture. Best results are more likely obtained by using quality equipment.						
NOTE: Formulated without mercury or lead.								

Resin:	Vinyl Acrylic
Solids:	Weight – 48.2% Volume – 30.9%
Weight Per Gallon:	11.23 lbs.
VOC / VOS Statement:	0.78 Pounds per Gallon 93 Grams per Liter
Recommended Film Thickness:	N/A Mills wet N/A Mills dry
Flash Point:	Non Flammable
Color Availability:	White
Container Availability:	Five Gallon
Cautions:	CAUTION! Do not take internally. Close container after each use. KEEP OUT OF REACH OF CHILDREN.
